To Whom It May Concern:

I am honored to support the application of Teen Addiction Anonymous. I have witnessed firsthand the power of TAA and the visionary and committed leadership of Sue Rothery, its executive director.

Of particular importance is that TAA was a response to the needs of our most vulnerable youth who themselves saw the importance of this program. Young people understand their challenges and admit to their poor choices. Most importantly, they want to know adults care about them even when they seem not to care about themselves.

TAA provides teens the vehicle to navigate from hopelessness to hopefulness. It provides a safe and non judgmental environment where young people can examine their past and current lives as lessons learned to prepare themselves for a future where hope and success still awaits them.

Young people know firsthand that they cannot get there alone but by drawing upon their friends, family and other caring adults facilitated by TAA that opportunity exists.

There is nothing quite like TAA. Its track record speaks for itself. It has transformed lives and continues to do so. TAA does not give up on kids and deserves the special consideration of individuals and organizations who feel the same way.

I am privileged to offer an unqualified endorsement of TAA's application.

If I can be of further service please feel free to contact me.

Sincerely,

Rick Miller
President
